FACIALS

ENVIRON SKIN CARE - ADVANCED VITAMIN SKIN THERAPY

Environ is a cosmeceutical range, which means both pharmaceutical and medical science has been used in formulating the product. The range is based on active ingredients that give optimum penetration. Whilst most cosmetics work only on the top few, superficial layers of the skin, cosmeceuticals work down into the dermis and deeper.

Environ's products are predominantly based on vitamin A, which is clinically proven to repair DNA in skin cells. The products also contain high doses of vitamins C and E which are proven to reduce redness and inflammation, protect skin from UV rays and free radicals, stimulate collagen and elastin production (anti-aging), plump the skin and has a balancing effect on the oil within the skin.

Environ is a results driven range for results driven clients. No matter your age or skin concern Environ has a range to suit you.

Advanced Active Vitamin Treatment.....(1 1/4 hours) £66.00

Packed with nourishing, anti-aging ingredients, the Active Vitamin Treatment will leave your skin looking radiant and dewy. The freshest, most active forms of Vitamins A and C, and Anti-Oxidants are driven deep into the lower layers of the skin using soundwaves and small electrical pulses. This scientific approach stimulates collagen to soften lines and improve elasticity, increase hydration and boost radiance. The Active Vitamin treatment is suitable for all skin types and is particularly effective at addressing sun-damage, pigmentation, premature aging, dryness, uneven skin tone and scarring with measurable differences after just one session.

**The Frown Treatment.....£71.50
(Course of 6) £385.00**

This highly effective treatment uses a special penta-peptide serum to target frown lines and achieve dramatic results. The unique combination of active ingredients is driven deep down into the skin to soften lines and reduce muscle tension in the forehead helping to prevent new lines forming. The treatment targets the same chemical complexes as injectables without the associated risks.

Hydraboost Treatment.....(1 1/4 hours) £82.50

The perfect antidote to dry, lacklustre skin, this intensive treatment deeply hydrates while plumping and firming the skin. Based on Hyaluronic Acid, which holds 1000 times its own weight in water, it helps to reduce fine lines caused by dehydration and increase the plumpness of the dermis, resulting in moisturised, glowing skin.

Cool Peel Treatment.....(1 hour) £60.50

This revolutionary approach to peeling achieves incredible results without damaging the skin. Low strength Lactic Acid is used to reduce the skin's pH and trigger the release of growth factors, which creates tighter, smoother skin. It destroys bacteria, boosts hydration and removes the build-up of dead skin cells, helping to decongest the surface and smooth its texture. The Cool Peel is ideal for clients with lines and wrinkles, rough or problem skin, sun damage and Rosacea.

LED LIGHT THERAPY MASK TREATMENTS

LED Light therapy is effective for skin rejuvenation, fine lines and wrinkles, sun damage, acne and problem skin, sensitive and inflammatory conditions such as rosacea, eczema and psoriasis, post treatment healing and scars.

LED Light Therapy is a breakthrough technology based on important research by NASA showing that certain frequencies of light significantly increase new tissue growth, reduce fine lines and wrinkles and can also stimulate collagen production.

LED light Therapy is clinically proven to be safe for all skin types and effective in the treatment of a wide range of skin conditions. It is a gentle, heat free treatment that does not contain harmful ultraviolet wavelengths and therefore cannot damage skin tissue.

The skin has the ability to absorb light and use it as a source of energy to stimulate a healing response. LED therapy uses specific colour wavelengths of light that penetrate the skin at varying depths. The light energises cells to produce collagen, improve elasticity and increase blood circulation and oxygen flow while releasing toxins. This in turn stimulates the anti-ageing process, helps to normalise cellular imbalances, and improves skin tone and clarity. It is a natural biochemical reaction which triggers the body to convert light energy to cell energy.

The use of different colour wavelengths enable the therapist to adapt the treatment to an individual's needs.

Eliminate signs of stress and fatigue or target specific problems with these bespoke massage treatments.

Antenatal massage(30 minutes) £38.50

Antenatal massage(1 hour) £55.00

Keeping your body in peak condition is vital during pregnancy. Antenatal massage can reduce stress hormones in expecting mothers. This helps to reduce anxiety and encourages relaxation. It can also increase blood flow, which in turn enables those all-important nutrients to get to the baby more efficiently. Other benefits include easing aches and pains, an increase in energy levels and improved sleep.

High frequency back cleanse(45 minutes) £30.50

This electrotherapy treatment is designed to suit all skin types; it deeply cleanses the back whilst having an anti-bacterial and germicidal effect on the skin's surface. The cell renewal process is also encouraged as a result of this treatment.

Body Sculpt Treatment(1 hour) £60.50

This effective treatment is a great way to help smooth stubborn cellulite while firming and tightening the skin. The active ingredients in Environs Body Profile Gel are driven deep into the lower layers to assist in the reduction of the 'orange peel effect' on upper thighs and buttocks leaving skin smooth and hydrated.
